

The advanced network and technology for first responders

Before the call, through the response, beyond the recovery. Verizon Frontline.

We truly prioritize first responders. It's why we work directly with those on the front lines to help define the future of public safety communications and better serve communities. There's a reason why more first responders choose us than any other network.¹ Find out why.

Verizon Frontline puts first responders first.

Our comprehensive platform brings together the tools and capabilities that first responders demand. Count on Verizon Frontline for:

#1 network of choice for first responders²

We've helped first responders complete their missions for decades. In fact, more than 45K agencies rely on Verizon Frontline to help keep their people connected and informed virtually anywhere their missions take them.

Wherever you need us, the Verizon Frontline Crisis Response Team shows up experience-equipped, and ready 24/7. The Verizon Frontline Crisis Response Team has a game-changing asset to help maintain connectivity – THOR, our Tactical Humanitarian Operations Response 5G mobile command center.

Truly prioritizing first responders

Our Wireless Priority Service and intelligent platform prioritize first responder communications in routine and extreme situations. That means priority and preemption across networks, along with interoperability to help your communications get through regardless of the devices and applications being used.

Turn your emergency vehicle into a mobile command center with Verizon Frontline Network Slice.

Verizon Frontline Network Slice - Connected Vehicle,³ the first solution in our Verizon Frontline Network Slice portfolio, delivers powerful in-vehicle connectivity with dedicated access to network resources for mission-critical communications. With Verizon Frontline Network Slice, your emergency vehicle can become a mobile command center.⁴ Built on America's most reliable 5G network.⁵

Trusted equipment that's built to last

We offer a range of ruggedized hardware and redundant systems to help improve resiliency even under the most demanding conditions. Additionally, we have products and solutions designed to keep first responders connected in the most critical moments.

Actionable insights

Our solutions help enhance situational awareness for better near-real-time decisions. Wireless Network Performance, our self-service tool, helps improve transparency with quick access to network and device analytics.

5G technology and innovations

5G innovations, including our 5G Ultra Wideband network, help give the high speeds, low latency and large capacity needed for today's most exciting public safety technologies, such as surveillance drones, immersive tactical training and more. Built on America's most reliable 5G network.⁶

Rapid and effective response

We offer an extensive array of rapidly deployable assets designed to support mission-critical communications where they're needed most.

The network trusted by first responders for 30 years and counting.

We are a partner that helps first responders stay mission-ready today and tomorrow. The Verizon First Responder Advisory Council provides insights into public safety needs. These insights help spur the development of new and enhanced solutions and capabilities.

Learn more

Verizon Frontline is the advanced network and technology built for first responders on the front lines. You can find out more about Verizon Frontline at verizon.com/frontline.

1. Based on quarterly third-party wireless voice market-share data, Q2 2025

2. Ibid.

3. All the noncellular peripherals within the vehicle (e.g., the Wi-Fi body camera) are connected to the 5G UWB router, which is transmitting the data on the Verizon Frontline Network Slice. Only the 5G UWB cellular router has the Verizon Frontline Network Slice.

4. Available in parts of select cities.

5. Based on RootMetrics® United States RootScore® Report: 1H 2025. Tested with best commercially available smartphones on three national mobile networks across all available network types. Your experiences may vary. RootMetrics rankings are not an endorsement of Verizon.
